Recycling, Market, Development, Zones, RMDZ, Community Plan Area, City of San Diego RMDZ

Summary:

To show location and extent of the Recycling Market Development Zones (RMDZ) and to assist in Recycling Market Development Zone (RMDZ) program planning, that combines recycling with economic development to fuel new businesses, expand existing ones, create jobs, and divert waste from landfills. This program provides attractive loans, technical assistance, and free product marketing to businesses that use materials from the waste stream to manufacture their products and are located in an RMDZ. Assistance is provided by local zone administrators. Local government incentives may include relaxed building codes and zoning laws, streamlined local permit processes, reduced taxes and licensing, and increased and consistent secondary material feedstock supply. Local incentives vary from jurisdiction to jurisdiction.

Feature Type: Polygon

Number of Records: 20

Publication Date: 2010-02-02

Date of Data (Temporal Period Extent): 2009-08-07 to 2010-02-02

Extent: San Diego County

Extent in Longitude Latitude

North 33.457462
West -117.401598 **East** -116.704181
South 32.541692

Extent in the item's coordinate system

North 2110385.999976
West 6210419.260624 **East** 6421697.999977
South 1778792.451857

Description:

There are two RMDZ's in San Diego- North San Diego County and South San Diego

County. These two North and South boundaries were determined in coordination with participating jurisdictions and compiled from County Community Plan Areas, Municipal Areas and City of San Diego RMDZ layer in SANGIS sde. - these boundaries were generally thought to be determined by industrial areas that could take advantage of recycling facility expansion, though that is a generality and the boundaries were often determined with less precision. Sub-boundaries within the North and South RMDZs are simply the participating jurisdiction, or in the Case of City and County of San Diego, smaller defined areas within each of their jurisdictions.

Distribution Ordering Instructions:

Data can be downloaded in shapefile format from the SanGIS Data Warehouse at <https://rdw.sandag.org/Account/Login>

Refer to SanGIS website (www.sangis.org) to obtain further information on mapping and data extraction services available from SanGIS.

Fields:

Overview:

Recycling Market Development Zones compiled from County Community Plan Areas, Municipal Areas and City of San Diego RMDZ layer in SANGIS sde.

Attribute item: OBJECTID_1 is ESRI internal feature number
 Attribute item: OBJECTID is former internal feature number (no longer used)
 Attribute item: Shape is ESRI geometry type
 Attribute item: NAME is name of area in source layer
 Attribute item: RMDZ_NAME is name modified to include source indicator toward the North and South RMDZ zones (these sub-boundaries are not the RMDZ, as the attribute name might imply)
 Attribute item: SOURCE is source of geometry for area
 Attribute item: RMDZ_ZONE is County RMDZ name
 Attribute item: Shape.area is internally-generated area in square feet
 Attribute item: Shape.len is internally-generated length in feet

__FID (OID)

Internal feature number.

Shape (Geometry)

Feature geometry.

NAME (String)

Name of area in source layer

RMDZ_NAME (String)

Name modified to include source indicator

SOURCE (String)

Source of geometry for area

RMDZ_ZONE (String)

County RMDZ name

Shape_Area (Double)

Area of feature in internal units squared.

SHAPE_LEN (Double)
