## Description:

Polygons representing law enforcement response responsibility in the County of San Diego. This data is dissolved from the Automated Regional Justice Information System (ARJIS) Law Beat boundaries. Not all incorporated cities in the County of San Diego have a police force. Many cities contract with the San Diego County Sheriff's Department for law enforcement. This layer will identify the jurisdiction responsible for law enforcement at a particular point - either the County of San Diego Sheriff's Department or the incorporated city.

This layer is primarily for the use of public safety personnel for incident response tracking and reporting.
