Hospital, San Diego County, OSHPD, CHHS

Summary:

This hospital point layer provides location information for mapping hospital facilities licensed by California Department of Public Health, Licensing and Certification. The dataset is a subset of the OSHPD Healthcare Facility dataset to include only facilities with a License_Type_Desc of 'hospital' and with a status of 'open' located in San Diego County and environs.

Feature Type: Point

Number of Records: 63

Publication Date: 2023-07-20

Date of Data (Temporal Period Extent): 2022-12-31

Extent: San Diego County Data snapshot from 31 December 2022 (data downloaded 14 July 2022)

Extent in Longitude Latitude

North 33.865499
West -117.933897 **East** -115.488879
South 32.608239

Extent in the item's coordinate system

North 2258557.508786
West 6050432.955114 **East** 6792728.025967
South 1805155.965132

Description:

This hospital point layer provides location information for mapping hospital facilities licensed by California Department of Public Health, Licensing and Certification. The dataset is a subset of the OSHPD Healthcare Facility dataset to include only facilities with a License_Type_Desc of 'hospital' and with a status of 'open' located in San Diego County and environs. The data snapshot was taken from OSHPD's ALIRTS system as of 1 August 2022.

Facility address information is maintained and provided by the Office of Statewide Health Planning and Development (OSHPD).

The accuracy of the latitude/longitude geocodes are adequate for administrative planning purposes only. The data, on a case-by-case basis, may not be appropriate for driving directions, routing, emergency services, or other critical uses of the data.

SanGIS downloaded the dataset from <https://data.chhs.ca.gov/dataset/licensed-healthcare-facility-listing> in csv format. Records within the County of San Diego and adjacent counties were selected and mapped using the latitude and longitude coordinates included with the dataset. The dataset was then projected to NAD_1983_StatePlane_California_VI_FIPS_0406_Feet. Only facilities with a license type description of 'hospital' that have a status of 'open' and that are located within a 25 mile radius of the County of San Diego were selected, with the exception of Imperial County, where vicinities within a 40 mile radius of The County of San Diego were included (as all facilities were beyond the 25 mile radius).

Use Limitation:

The State of California, Health and Human Services Agency, and the Office of Statewide Health Planning and Development make no representations or warranties regarding the accuracy of data or maps. The user will not seek to hold the State or the Department liable under any circumstances for any damages with respect to any claim by the user or any third party on account of or arising from the use of data or maps. The user will cite the Office of Statewide Health Planning and Development as the original source of the data, but will clearly denote cases where the original data have been updated, modified, or in any way altered from the original condition. There are no restrictions on distribution of the data by users. However, users are encouraged to refer others to the Office of Statewide Health Planning and Development to acquire the data, in case updated data become available.

Use of this data is subject to the CHHS Terms of Use and any copyright and proprietary notices incorporated in or accompanying the individual files.

See <https://data.chhs.ca.gov/pages/terms> for further details.

Distribution Ordering Instructions:

Available for download from the SanGIS Regional Data Warehouse
(<http://www.sangis.org/download/index.html>)

Fields:

Overview:

A list of California healthcare facilities licensed by California Department of Public Health, Licensing and Certification. To link the OSHPD IDs with those from other Departments, like CDPH, please reference the "Licensed Facility Cross-Walk" Open Data table at <https://data.chhs.ca.gov/dataset/licensed-facility-crosswalk>

Key fields in the dataset are LICENSE_TYPE_DESC so that major types of facilities can be filtered (Clinic, Hospice, Hospital, Long Term Care Facility).
The LICENSE_CATEGORY_DESC field is particularly important for further definition of a facility, such as type of hospital (e.g. General Acute Care Hospital, Psychiatric Health Facility, Chemical Dep. Recovery Hospital or Acute Psychiatric Hospital).
The ER_SERVICE_LEVEL_DESC field is also a key field for hospitals (Emergency-Basic, Emergency - Comprehensive, None, Not Applicable).

See individual field definitions for further details.

__FID (OID)

Internal feature number.

OSHPD_ID (Double)

OSHPD Number

A unique number established by the Office of Statewide Health Planning and Development (OSHPD) for identifying facilities and used in the Licensed Facility Information System (LFIS). The first three numbers identify the type of facility, the next two represent the county number, and the last five are randomly assigned within each county.

DBA_CITY (String)

City where facility is located

FACILITY_N (String)

LICENSE_NU (Double)

FACILITY_L (String)

DBA_ADDRES (String)

LONGITUDE (Double)

Longitude of facility.

DBA_ZIP_CO (Double)

COUNTY_COD (Double)

COUNTY_NAM (String)

ER_SERVICE (String)

TOTAL_NUMB (Double)

FACILITY_S (String)

FACILITY_1 (Date)

LICENSE_TY (String)

LICENSE_CA (String)

LATITUDE (Double)

Latitude of facility

SHAPE (Geometry)

Feature geometry.
