

MAJOR_ROADS

Tags

San Diego, Major Roads, Roads, Transportation, SANDAG

Summary:

The MajorRoads feature class includes major arterials and state highway features for the San Diego and Imperial County region, as well as additional features for portions of Orange and Riverside Counties and northern Baja, CA. The data was developed primarily for use in developing cartographic products and services at the regional or sub-regional scale.

Feature Type: Line

Number of Records: 11512

Publication Date: 2018-08-08

Date of Data (Temporal Period Extent): 2018-02-27

Extent: Data covers the San Diego and Imperial County region, as well as portions of Orange and Riverside Counties, and Northern Baja, CA. Updated in February 2018.

Extent in Longitude Latitude

North 34.092030
West -118.118599 **East** -114.315546
South 31.110476

Extent in the item's coordinate system

North 2340997.500074
West 5995823.500028 **East** 7147456.280748
South 1261295.461648

Description:

Data from a number of sources is used for the development and ongoing maintenance of the MajorRoads feature class. Source data includes SanGIS Roads_All, Caltrans State Highway Centerlines, and street centerline data from the County of Imperial. Regional aerial imagery (1'/pixel resolution or better) is generally used as a guide for delineating roadway alignments, primarily using heads up digitizing methods, using ArcGIS desktop software.

Fields:

Overview:

This dataset is a spatial representation of the system of major roadway facilities for the San Diego County region. The dataset also includes major roads for Imperial County, Northern Baja California, and portions of Orange and Riverside Counties. Significant attribute fields in this dataset are NM, SD, StateHwy, HOV and Toll. Review attribute information below for more information.

__FID (OID)

Internal feature number.

OBJECTID (Integer)

Internal feature number

Shape (Geometry)

Feature geometry

StateHwy (Integer)

Identifies if feature is part of the State highway system (1 = Yes, 0 = No)

HOV (Integer)

Identifies if feature is classified as an HOV or Managed Lane (1 = Yes, 0 = No)

Name2 (String)

Alternate name field

Toll (Integer)

Identifies if facility is classified as a Toll Road or FastTrak segment (1 = Yes, 0 = No)

NM (String)

Street name

IYR (Integer)

Initial year feature was added as "existing" to the SANDAG transportation model network

IFC (Integer)

SANDAG transportation model functional class

SD (Integer)

Feature is within San Diego County (1 = Yes, 0 = No)

FXNM (String)

From cross-street name

TXNM (String)

To cross-street name

Shape_STLe (Double)
